

It is not a secret there are four seasons in a year, such as: winter, spring, summer and autumn. But my favourite season is summer because summer holidays are very long and my friends and I have a fantastic chance to travel.

No doubt summer holidays will come soon. My school year will be over. I think I will enjoy my summer holidays and travel a lot.

When summer holidays come, my friends and I will go hiking to the river. We will take a kettle, a fishing rod, a knife, a spoon, matches and a flask with water. I will fish by the river but my friends will make a fire. Believe me or not I will cook a fish soup and we will eat it. We will drink water. Naturally we will go swimming for about thirty minutes. We'll put up a tent and when it is dark, we will go to sleep. In the morning my friends and I will go home.

When I am at home, my parents and I will have lunch. I will eat some potatoes and chicken. And I will drink tea, I'll tell my dearest and nearest a lot of tales about my trip to the river.

Then, we will go to the farm. It is a breathtaking trip for me. There are a lot of hens and cocks there. There are three pigs and two nice horses on the farm. There are three my favourite dogs there. Their names are: Rem, Barry and Ken. Rem has got brown ears and brown and black spots on the back. Barry is black and white. She has got short paws. And Ken is an absolutely small puppy. He is black. On the farm I will ride my horses. I will play with my dogs. And enjoy fresh air. Travelling to the farm is a great adventure for me.

Now you see I like to travel very much!!!
