Speaker A

I live in the country but I've always wanted to move to a big city. I think that there are more career opportunities there, more jobs, people can get a better education and better medical services there. There is more entertainment in the city, too. You can go to theatres, cinemas and clubs, there are lots of people everywhere – you'll never get bored. I'll move to the city as soon as I get an opportunity to do so.

Speaker B

I live in a big city, in a new fast-developing area. Most of the buildings were built not long ago, so the area has a modern look and is comfortable to live in. There are shops, cinemas, schools, hospitals, sports centres and parks within easy reach of my house. Right in front of my house there's a bus stop, so I have no problem getting to the centre or any other part of the city.

Speaker C

We've just moved house and now I live in a new modern building in the centre of the city. My window has a view of a busy street but the interior creates a nice and peaceful atmosphere. The walls are painted light green and the furniture is in warm brown and creamy colours. There's a plasma TV and a portable audio centre. I like drawing and there are several of my pictures on the walls. I think they look nice there.

Speaker D

Everybody wants their home to be a safe, nice and comfortable place but their ideas of comfort and beauty are very different. In hot climates people sometimes make their homes underground. Living underground, however, doesn't mean living in dark, dirty and damp caves. Modern underground homes are light. They are beautifully designed, nicely furnished and very comfortable to live in.

Speaker E

When we were walking along the main street, the guide pointed to an ordinary looking house and said that the place had a history. During the war a famous doctor lived there. He arranged a hospital in his own home and saved lots of people. Now nobody lives in the house, there's a museum of science and medicine there. The museum has very interesting exhibits on the history of medical science.
