

Our school is very nice. It is big and there are more than 1000 pupils. There are four floors in it. There are many rooms in it. Every summer builders repair it. I like it very much. Our school is modern, there are many computers and other things in it. Especially in IT class. There are many good teachers in our school. They can explain new material so good, that you will listen to your teacher with pleasure. I think, our teachers are very good people.

My favourite subjects are: English, Russian, IT, Maths and Literature. I have good marks on this subjects and I like them for it.
