My mother

I love my dear mother

She `s very kind with father

She `s polite, clever, loving

And very-very funny

We do homework together

Which I do not understand

And in excellent weather

We`re going into the woods for a picnic

In the summer we go to travel

In the winter celebrate the New Year

My mother is ideal

And we live amicably

When I was child

She red me tales

And soon I got older and understood

My mother is friend

Of course, my mother very tired,

But this does not preclude

Skills to help me very often,

Every hour and every day

Today is Mother`s Day

This is very good

I will go to my mother

And congratulating her
