Это стихотворение я посвящаю моей маме - моему другу и учителю.

My mum!

My mum is like an angel
That flies high in the sky.
Because she's very kind
and never tells a lie.

My mum is always busy,
And every time she rests,
I try to make her happy,
And try to do my best.

Every time we are together
The night is shining bright.
The day becomes so happy
That she is by my side.

I love her hands, because they are
They are so warm and fine.
I am so grateful that I have
Such a caring mum!

She understands me every time
I am in gloomy mood.
She finds a couple of necessary rhymes,
And they do make me good.

My mum is a real true friend
Who never stays apart.
I can tell her everything that hides
Deep in my heart.

Her heart is like a magic stick
It'll cure all my wounds.
And if I'm very happy
It'll laugh loudly too!

She loves me tender and even now
When I am far away
I feel her warmth I feel her touch

I miss her so much!

My mum is like an angel
That flies high in the sky.
I wish her to be happy
And never never die.!!!
