«Memory...»

Spring! Victory! The 9th of May!

What a splendid day!

We are very gay

On this bright spring day!

There is a nice monument

In the centre of our settlement.

Every year in spring

When the grass is green

We come there and put red flowers

To our Heroes - Soviet soldiers.

They were very young

When that war began.

They loved the life

But they are not alive...

They fell in battles

But stopped the advance of German forces.

We will remember them always

We will never forget their courage.

The Great Patriotic War -

The most terrible war.

We want no war

Never more!
