г Волгоград,

Brother

Years have flown by ...

Fighting died down ...

Ended - this damned war

My brother had gone then you are forever

Your image in our hearts we will always

I was a little girl then

And my brother we said goodbye forever

Said the mother wiping tears

You my dear, we'll all wait

You be a man, I love you

Do not let the fascists to seize a powerful country

On the field, tanks stormed

And with it the burning sunset

And the Germans Russian trampled field

And the killing of young children.

And the last bit of strength,

You then took the grenade and threw himself on the tank

And the explosion happened in the sky ... And tears in his eyes

We will forever remember your deed combat

when you give my life for future peace.
