Remember 9 of May

The peaceful sky above the head
People is free as the wind in the field
That is due of dead.
They give their lives instead

Mars took their offerings
But what the price of the victory is?

Black color means smoke,
Orange color means flame.
No, it is not whose silly joke!
Keep the memory of 9 May.

Every person, especially men!
Pay attention to example of daring
Try to be better as you can.
Life will be sweeter than berry.

Mars took their offerings.
People is free again
Now, 9 May is the popular feast
But people will be never the same...

This holiday is significant for many people
It is great celebration of liberation
But days of war stay in history little by little.

I looked at the map of the Motherland
And think about follow things:

We must remember fallen and
Thanks them for their offerings.
